

The workshop was about safety and health standards according to OSHA, Eng. Abdalrzak Aldean started it by introducing what is OSHA, then moved to more specific situations and guidelines that must be followed to guarantee the safety of workers such as fall protection, electrical hazards and emergency exits. The workshop ended successfully in two sessions held on the 11<sup>th</sup> and the 18<sup>th</sup> of March 2019 with 50 people attending it.
