Biographies

Neyfe Sablón Cossío is a professor and researcher in Industrial Engineering career at the Technical University of Manabi, Portoviejo, Ecuador. She holds a Bachelor's degree in Industrial Engineering from Matanzas University. She is also graduated with a Master degree in Business Administration and PhD in Science Technical Industrial Engineering. All these studies carried out in Cuba. She has published several journals and conference papers. Dra. Sablón has accomplished research project on supply chains in Mexico, Cuba and Ecuador. Her research interests include administrations, business, logistic, operations administrations, supply chain and value chain.

Erik Orozco Crespo is a professor and researcher in Industrial Engineering career at the North Technical University, Ibarra, Ecuador. He has a degree in Industrial Engineering from the Central University "Marta Abreu" of Las Villas, Cuba. In addition, he has a Master's degree in Industrial Engineering at this university. He has published several conference papers related to the operations management and the discrete event simulation, areas that constitute his interests for research.

José Armando Pancorbo Sandoval is a professor and researcher in Industrial Engineering career at the Equinoctial Technical University, Santo Domingo, Ecuador. He has a degree in Accounting from Matanzas University, Cuba. He has a PhD degree in Business Management from University of Leon, Spain. His research interests include administrations, business, logistic, operations administrations, supply chain and value chain.

Leonardo Manuel Cuétara Sánchez is a professor and researcher at the Technical University of Manabi, Portoviejo, Ecuador. He has a Master's degree in Tourism and Hotel Management from Matanzas University. In addition, he has a PhD degree in Economic Sciences at this university. His research area is the evaluation of tourism services, which includes logistics services and supply chains.

Sonia Emilia Leyva Ricardo is a professor and researcher in Industrial Engineering career at the Equinoctial Technical University, Santo Domingo, Ecuador. She has a Master's degree in Environmental Management from Matanzas University. Her research interests include administrations, business, logistic, operations administrations, supply chain and value chain.

Andrés Marcelo Moreno Monge is a graduate of the Industrial Engineering degree at the North Technical University, Ibarra, Ecuador.
