**Dr. Ahmed Bensenouci**, Professor at the Department of ECE, Effat University, received his Ph.D. from Purdue University, Indiana, USA, in 1988, and his Master Degree from RPI, NY, USA, in 1983. He joined, respectively, ENP, 1989-1994, University of 7th of April, Sebrata, Libya, 1994-1996, University of Malaya, Kuala Lumpur, Malaysia, 1996-1998, College of Technology, Al-Baha, KSA, 1998-2008, Qassim University, Buraydah, KSA, 2008-2010, and King Abdulaziz University, Jeddah, KSA, 2010-2013. Actually, he is attached as a Professor, to the Electrical and Computer Engineering Department, Effat University, since 2013.

He is an IEEE Senior Member. His main areas of interest include control of power system, application of intelligent techniques, and renewable energy systems.

He participated in many Arab and international conferences, and published 23 journal and 97 conference papers. He participated in several funded projects. He is a reviewer of some Scientific Journals and a Jury member for staff promotion to Associate and/or to Professor Positions.

**Eng. Mashaal A. Rajeh** is an Electrical and Computer Engineer, received her Bachelor's degree from Effat University, in 2019. She finished her internships in two different companies, at Saudi Aramco, Dahrn, Eastern Province as an Electrical Engineer, in 2018, and at General Electrical, Dammam, Eastern Province as a Maintenance Engineer, in 2017. She participated in Arab Remotely Operation vehicle computation. She is an active IEEE member. She Participated in Saudi Arabia smart grid Conference (SASG2018) with poster about Hybrid wind and solar power system. She participated in Saudi Arabia smart grid Conference (SASG2017) with poster about Solar Roadways.
