

**Dr. Po-Tsang Huang** is an Associate Professor of Department of Industrial and Systems Engineering at Chung Yuan Christian University in Taiwan. He completed his Ph.D. in Industrial Education and Technology at Iowa State University in the USA. His research interests are Quality Assurance, Automated Manufacturing Processes, Lean Manufacturing/Six Sigma, Design for Manufacturability, and Application of Neural Network and Fuzzy Logic.

**Josephine D. German** is an Assistant Professor of School of Industrial Engineering and Engineering Management at Mapua University in Intramuros, Manila, Philippines. She has earned her B.S degree in Industrial Engineering and Masters in Engineering (major in IE) from the same University. She is a Professional Industrial Engineer (PIE) with over 15 years of experience and has taught several courses in IE such as Methods Engineering, Logistics and Supply Chain Management and Systems Engineering. She has done research projects in the field of logistics and supply chain management, systems dynamics, and ergonomics. She is a member of Philippine Institute of Industrial Engineers (PIIE).

**Rodalyn O. Mabanag** is a graduate of Mapua University with a degree in B.S. Industrial Engineering. She is a member of the Philippine Institute of Industrial Engineers (PIIE). Her research interest includes CIM and Quality Control.

**Gabrielle Quirino** is a graduate of Mapua University with a degree in B.S. Industrial Engineering. She is a member of the Philippine Institute of Industrial Engineers (PIIE). Her research interest includes Statistics and Quality Control.
