Biographies

Jesús Isaac Vázquez-Serrano is a Matser student of the School of Engineering and Sciences at Tecnológico de Monterrey, in Monterrey, Mexico. He received a bachelor's degree in Industrial and System Engineering from Tecnológico de Monterrey, in Aguascalientes, Mexico. He has experience in Lean, Six Sigma and automotive industry, and his research interests include engineering statistics, system dynamics and quality control. His research mainly examines applications of Industrial Engineering techniques in healthcare.

Rodrigo E. Peimbert-García is the Director of the International Liaison Office of Tecnológico de Monterrey in Sydney, Australia. He is also an Honorary Research Fellow in the School of Engineering at Macquarie University. He received his Ph.D. in Systems & Engineering Management from Texas Tech University, and his Eng.Sc.D. with a major in Industrial Engineering from Tecnológico de Monterrey. He is a Certified Lean Six Sigma Master Black Belt from BMGI Consulting Group. His research interests include Healthcare Systems Engineering, Lean Thinking, Six Sigma and Discrete-Event Simulation.
