Biographies

Hamdi Bashir received his PhD degree in 2000 from McGill University, Montreal, Canada. Currently, he is an Associate Professor of Industrial Engineering and Engineering Management at the University of Sharjah. Prior to joining this university, he held faculty positions at Sultan Qaboos University, University of Alberta, and Concordia University. His research interests are in the areas of project management, manufacturing systems, quality management, and healthcare management. He is a senior member of the Institute of Industrial and Systems Engineers (IISE).

Salah Haridy is an assistant professor in the Department of Industrial Engineering and Engineering Management at the University of Sharjah, UAE. He received his M.Sc. and Ph.D. degrees from Benha University, Egypt and Nanyang Technological University, Singapore in 2008 and 2014, respectively. He is the recipient of the 2013 Mary G. and Joseph Natrella Scholarship awarded by the American Statistical Association (ASA) and the 2014 Richard A. Freund International Scholarship awarded by the American Society for Quality (ASQ). His research interests cover quality engineering, statistical process control and design of experiments.

Mohammad Shamsuzzaman is currently an associate professor in the Department of Industrial Engineering and Engineering Management at the University of Sharjah, UAE. He obtained his Ph.D. in Systems and Engineering Management in 2005 from Nanyang Technological University, Singapore. His current research focuses on quality control and improvement, reliability, simulation, and multi-criteria decision-making. He is a member of the American Society for Quality.

Imad Alsyounf is an associate professor of Industrial Engineering, employed by the University of Sharjah, UAE. He is the founder and coordinator of the Sustainable Engineering Asset Management (SEAM) Research Group. He has produced more than 30 conference and journal papers. He has about 27 years of industrial and academic experience in various positions in Jordan, Sweden, and UAE. His research interests include reliability, quality, maintenance, and optimization. He has developed and taught more than 25 post and undergrad courses. He delivered training courses in Kaizen, TQM, and organizational excellence.
