Biographies

Rafiu Dimeji Seidu is a Course Director for BSc Commercial Management (Quantity Surveying) at the School of the Built Environment and Architecture, London South Bank University (LSBU), London, UK. He was formerly working as a Senior Quantity Surveyor in the construction industry before joining LSBU in 2017. He spent over 15 years working abroad as a Quantity Surveyor, rising to the position of Senior Quantity Surveyor working in both construction and consultancy firms. His research interests include built environment, commercial management, procurement and construction project management.

Bert Ediale Young is a Senior Lecturer and Course Director for the MSc Quantity Surveying at the School of the Built Environment and Architecture, London South Bank University, London, UK. He is a Fellow of Higher Education Academy (FHEA). He was formerly a Course Director of BSc in Commercial Management (Quantity Surveying). He has over 15 years industrial experience working in both construction and consultancy organisations. His research interests include built environment, modular method of construction and construction cost management

Dr Menaha Thayaparan is a Senior Lecturer at the Department of Building Economics, Faculty of Architecture, University of Moratuwa, Sri Lanka. She is a Fellow of Higher Education Academy (FHEA). She has obtained her PhD in construction and property management at the School of the Built Environment, University of Salford, UK. Before joining the Department, Menaha was a Course Director of BSc in Commercial Management (Quantity Surveying) and a Senior Lecturer in Quantity Surveying at London South Bank University (LSBU), UK. She has over fifteen years of teaching and research experience, and has published book chapter, journal articles, international conference papers and research reports. Her research interests include construction management, lifelong learning, higher education, built environment, disaster resilience, women in construction and marginalized communities.

Joseph Appiah-Kubi is a Site Supervisor at DMC Contracts Ltd, UK. He completed his MSc in Quantity Surveying at the School of the Built Environment and Architecture, London South Bank University, UK. He is very interested in the use of innovative modular construction systems in major infrastructure projects to increase efficiency, reduce construction time and to make construction carbon neutral. Having worked as a site supervisor for a fit-out company; Joseph's passion for modular construction began with his admiration for the use of modular construction systems by a home builder. He desires to acquire a full spectrum of professional knowledge and experience of construction cost management.
