## **Biographies**

**Mst. Shanta Khatun** has recently completed her M.Sc in applied Mathematics from Khulna University, Khulna-9208, Bangladesh under Science Engineering and Technology School. She completed her Bachelor of Science (Honors) degree in Mathematics in the year 2017 from the same University. She Attended CIMPA (International Centre for Pure and Applied Mathematics) research school on Dynamical Systems and its Applications to Biology during June 10-21, 2019 in the Department of Mathematics held at University of Dhaka. Her research interests include Mathematical Modeling and Simulations, Biomathematics, and Epidemiology of Chronic Diseases.

**Dr. Haider Ali Biswas** is currently affiliated with Khulna University, Bangladesh as a Professor of Mathematics under Science Engineering and Technology School. Prof. Biswas obtained his B. Sc. (Honors) in Mathematics and M.Sc in Applied Mathematics in the year 1993 and 1994 respectively from the University of Chittagong, Bangladesh, M Phil in Mathematics in the year 2008 from the University of Rajshahi, Bangladesh and PhD in Electrical and Computer Engineering from the University of Porto, Portugal in 2013. He has more than 18 years teaching and research experience in the graduate and postgraduate levels at different public universities in Bangladesh. He published three books, one chapters and more than 70 research papers in the peer reviewed journals and international conferences. His present research interests include Optimal Control with State Constraints, Nonsmooth Analysis, Mathematical Modeling and Simulation, Mathematical Biology and Biomedicine, Epidemiology of Infectious Diseases. Recently Professor Biswas has been nominated the Member of the Council of Asian Science Editors (CASE) for 2017-2020 and the Associate Member of the Organization for Women in Science for the Developing World (OWSD) since 2017.
