Biographies

Chandra Mouli R. Madhuranthakam is an assistant professor in the department of chemical engineering at the Abu Dhabi University, Abu Dhabi, United Arab Emirates. He earned B.Tech in chemical engineering from Sri Venkateswara University, India Master's in chemical engineering at the Indian Institute of Science, Bangalore, India and PhD in chemical engineering University of Waterloo, Canada. He is a member of the American Institute of Chemical Engineers and the Institute for Operations Research and Management Sciences (INFORMS).

Archana Thomas was an undergraduate student in chemical engineering department graduated recently from Abu Dhabi University.

Zainab Akhter was an undergraduate student in chemical engineering department graduated recently from Abu Dhabi University.

Ali Elkamel is a professor in the department of chemical engineering at University of Waterloo, Waterloo, Canada. He earned his B.S. and M.S. in chemical engineering at Colorado School of Mines and PhD in chemical engineering at Purdue University. Ali Elkamel is also a visiting Professor in the Department of Chemical Engineering at Khalifa University, Abu Dhabi, UAE. He is a member of the Canadian Society for Chemical Engineering, the American Institute of Chemical Engineers, the Canadian Operational Research Society, and the Institute for Operations Research and Management Sciences (INFORMS).
