Abstract

The presence of COVID-19 resulted in lectures being conducted online. Lecturers must conduct online learning effectively, in order for the lecture process to be enjoyable and result in satisfaction for students. The purpose of this research is to find out the satisfaction of students in online lectures and the effectiveness of the learning media used. This research uses quantitative surveys using google form facilities to students at public universities semarang. Data collection is done by random sampling technique to find out student satisfaction and effectiveness of learning media used. The benefit of this research is to provide information to lecturers related to online lectures that are effective and satisfy their students.

Keywords

Effective, E-learning, Learning media, Student satisfaction, Covid-19
